PRODUCT NEWS

OMRON

**Product notification Change
Product Upgrade**

Issue Date
14 April, 2026

[Reason for Product Upgrade]

Security laws and regulations are becoming increasingly stringent across countries and industries. In response to these evolving requirements, beginning in **Autumn 2026***, OMRON will introduce the **CJ3M CPU series**, which offers enhanced network security and more advanced features while maintaining backward compatibility with the CJ2M series.

As a result of this transition, the **CJ2M CPU series will be discontinued**. Specifically:

- The **CE marking for the CJ2M-CPU1[]** will be withdrawn, and the product will be discontinued in **the European market only**.
- The **CJ2M-CPU3[]** will be **discontinued globally**.
